## Keep Your School Safe

Attachment Systems to protect your school building and the students inside  
In an effort to keep America's kids safe, Pentagon Protection US has developed a customized attachment package just for schools at a discounted price.

## Our Products

### Pentagon Z-Lok®

Especially made for protection against intruders, Z-Lok™ is designed to fit commercial doors, spanning over the snap ring and attaching to the door frame. Its design prevents the ring from snapping out of its location upon impact.

### Pentagon GSS™

Pentagon Glass Security Seal has a high level of protection and is designed to fit commercial doors and windows. This profile combines the benefits of an attachment system and a gasket in one. This profile achieved a GSA Level 2.

### Pentagon Elite™

Pentagon Elite™ is virtually undetectable and has a high level of protection. This profile is designed to fit commercial doors and windows and has the highest protection level. It differs from GSS in that it does not have a built-in gasket. Like GSS, Elite achieved a GSA Level 2.

Our line of attachment systems includes Pentagon Elite™, Glass Security Seal (GSS)™, and the all flexible Z-LOK™. Each profile is engineered to enhance the bond between the film and the framing system with consistency and strength for maximum security.

## About us

- **Leading company providing anchoring solutions for the window film industry**
- **Intrusion protection**
- **Attachment Systems are tested to American Standards**
- **Provide glass containment solutions to private and public sectors**
- **Continually expanding and improving quality of products for your safety and protection**
- **Our mission is to help save lives, reduce injuries, and protect property using cost effective and affordable solutions**

## Glass is Your Schools' Weakest Link

The easiest points of entry for intruders into schools are the largely unprotected glass doors and windows. Glass is easily broken and fragments can cause grave injury. Easy visibility also allows intruders to prepare for break-in and entry.

### *How We Can Help*

Virtually invisible to an intruder, our attachment systems coupled together with security window films will prevent glass shards from falling inward and delay or even stop intruders from entering the premises, giving extra valuable time to emergency responders to act, all at a discounted price.

Pentagon Protection US's School Protection System is offered at the following discounted rate:

- \$0.10/lin-ft discount for 500-1000 lin-ft order and
- \$0.15/lin-ft discount for 1000-2000 lin-ft order and
- \$0.20/lin-ft discount for 2000-5000 lin-ft order

Contact us for additional discounts on orders larger than 5000 lin-ft.
